Data Interfaces in HealthCare & Industries

The image shows two identical promotional posters for the 'Blended Intensive Programme' titled 'DATA INTERFACES IN HEALTHCARE & INDUSTRIES'. The program is scheduled for March 23rd to 27th, 2026, at the 'MEDIZINTECHNIK' department of DHSN - Campus Bautzen, which is part of the Department of Medical Engineering at the Cooperative State University of Saxony. The posters feature a central graphic of two stylized human heads in profile, one red and one yellow, with various mathematical and technical symbols (like pi, infinity, and arrows) around them. The background is dark blue with white symbols. Logos of partner institutions are displayed on the right side of each poster, including: Universität Bielefeld, Universität Leipzig, HENRY SCHEIN MEDICAL, RWILCO, am AKTORmed, stingorg, Dräger, TECHNICAL UNIVERSITY OF LIBEREC, and ICCAS. The DHSN logo and website 'www.dhsn.de/bautzen' are at the top of each poster.

We have summarized essential information of the BIP 2026 „Data interfaces in HealthCare & Industries“ in this course. Please explore the course and download or upload material if required.
